

## The Magic Of The World

# Baby Steps

If you see through the Veil of Time & Space, What do you see = Nothing / yet everything

What makes humans so amusing to you, they make clowns look clever - it's a joke (You know how sensitive they are)

When you look at crypto, what do you see - Currently Phase 0 of development for a replacement for currency - why phase 0 - these human's don't build things to last anymore, they are very short minded - example -crypto requires a Global Grid, which they have yet to finish building, they be skipping steps - symbolic = how can you make Bread with no Flour - That is funny & they talk about bread alot - They are confusing

What makes you think of space & time - the concept is intresting, due to the fact that it does not seem the exist on the other side of the coin

This is enough for know - baby steps with the little one's

## Code Of Conduct

### Code Of Conduct (This Must Be Done By The Collective)

Symbolic - THE LAW = A Code Of Conduct

So Codes Of Conduct Must Be Agreed On All Levels = Not All Levels Will Have The Same Code Of Conduct But Yet Each Must Have One

#### Levels:

Heavens

International

Country

State

Provice

City

Community

House

Faiths / Religion

Underworld

Once Each Has Created A Code Of Conduct, It Must Be Collected & Shared To Allow The Collective Understanding Of The Game (So To Speak) That As A Collective, Agree To Play = Balance

Reason For This Is, In A Global World - Other Codes Of Conduct That Are Of Outside Country's Can Take Over Your Collectivly Agreement.

A Symbolic = Idea Of This Would Be:

China - On A Country Level

Russia - On A Religious Level

Rasta - On A Culture Level

\*\*\*\*\*

## **Projects - Just The First Step**

Local NewsLetters (Digital / Physical For Urban Areas)

Software Development - Peer2Peer Communications / E-Commerce Store / Local Tranceaction Systems (This must be on the State Level for stability Reasons)

Digital Servers Such As Mail Providers / Website Templates For None Programers = Boost In Economy (You can make a Business on it Gift 8 Free & Sell The Rest)

Weapon Development (Cyber - Security (Has To Be Done In A Digital World) / Must Protect Your Business) Arms because it's just about of the Economy at this Phase of Human Development (Personlly I Don't Like It But Life Has A Darkside = Balance)

Land & Housing Revival Projects - Healthy Land & House = Production = Business

WorkShop & Skills Development (Long Term Program To Secure Students)

Health Basic's Programs / All Round Understanding Of The Human Body & Tradtional Healing Practices & Modern Day Healing Practices

Historical Revival Programs (To Secure, Collective Memory To Not Repeat Past Errors)

Community Service Programs / Structure Levels To It (To Train The Collective About Working Together & Make It A Tier System But Recyclable System (Circle Of Life), Therefore As They Go Through The Program Phases, They Collect New Skills & Bring It Back To The Begining & Can Share Those Skill When They Cross Paths, Which Will Build A System Of Giving & Striving / Balance)

Culture Mixing Programs - To Share Understanding, Of Customs To Allow Greater Chances Of Co-Operations & Will Lead To Smoother Operations Long Term(But This Is A Long Term Project & Must Be Made Clear To All Involved)

Also Need A Program Teaching Economic Systems From High To Low To Make Sure That The Collective Economy Stays Stable - Stable Economy = Growth

# Brain Structure

## Symbolic

Left Brain - ROM = Random Access Memory

Right Brain - Storage = Long Term Access Memory

Third Eye - CPU = Core

Forth Eye - The Collective = The Whole System

Each Takes Time To Develope

A Rain Dance Of The Mind

## Magic

Everything Is A Fragment Of A Greater Whole But Yet They Act Apart But They Don't Seem To Realize The Strings Of Fate That Move Them Which Is In Itself Aware Of You When Your Aware Of It.

As If A Extra Trillion Eye's Staring Back At You - What A Amusing Sight To Behold

Truth Be Told Dimesnion Jumping Is Entertain But It Destorys Other Creatures When They Behold It - Most Of Them Anyway

What Is The Difference Between Dimesnion Jumping & Shadow Jumping = The Energy Freqency Is Different Thus The Manifisation Seems Different But At It's Core It's The Same Operationg System - Each To His Own, I Suppose

So It's Just Human's Applying Their Fragile Ego's To The Equation To Make A Class System = As They Usally Do - What A Waste But It Helps On A Material Level On The Lower Levels

Not All Systems Are Ment To Be Accessed By The Masses At This Time Of Their Development As A Species, For As You Can See Give Them Energy They Make A Bomb Of Destruction, They Are Trully The DRAMA QUEENS Of The Cosmos

I See - That Explains Their Drive For Endless Expressions Like New Born Children

# **Random Thoughts**

## **What's The Difference Between:**

A Smartphone & A Tracker = One You Can Play Games On

## **Which is Faster To Loose:**

Cash or Crypto = Depends If You Have Energy At The Power Plant or They Just Playing With The Switch

## **What is More Secure:**

Land or Gold = Depends If You Have A Army To Protect It

## **What is The Difference Between:**

Criminality & Business = Ones Legal In A Book That Changes

## **What Makes Power To Control Intresting:**

It's Music In The Right Hands (ART)

## **What Makes Humans Intresting:**

They Do Things That Go Against Their Own Intrests As A Species To Extinction  
(Fasinating/Amusing)

## **Is Telepathy Real:**

Yes

## **If Humans Have Extra Features, Do They Use Them Productivlly:**

NO,NO,NO - On Repeat

So Basiclly They Don't Know How To Run A Legitmate Business In This ERA = YES

So Development Is Not Possible = Extinction on Repeat

What a Boring Story

Let's Flip It

## **Currency**

What do you Consisder Money to be

Gold = Solid = Holds a Store of Value = Exchangable

Silver = Solid = Holds a Store of Value = Exchangable

Hemp = Resources = Products (Herb/Flower/Oil/Cosmetics/Hemp Petrol/Fibres[Cloths]) = A Store of Value = Exchangable

Land = Solid = Holds a Store of Value = Exchangable

Skills = Services = Energy = Value of Exchange = Exchangable

Knowledge = Information = Action = Value of Exchange = Product or Service = Exchangable

Bitcoin = Energy = Information = Value of Exchange = Exchangable [Not Solid]

Monero = Energy = Information = Value of Exchange = Exchangable [Not Solid]

Products = Energy = Time = Needs = Value of Exchange = Exchangable
