

The Nile River

The Order

Population

What Makes Humanity Stable - A Balance Between Males & Females

Let's Keep It Simple - Due To The Fact That Factors Are Different In Different Locations But The Principle Is The Same

A Imbalance = At Some Point, Leads To A Massive Drop In Population If The Ratio Of Males & Females Is Imbalanced = A Decrease In Skills/Maintains Of The Whole & Will Lead To The Collapse In The Civilization

Genetic Cycle Of Evolution

Human's Go Through A State Of Flux = 1 - A Full House Mix Of Genetic Humans = 2 - A Separation Of Human Genetic's, Leads To More Colours For The Canvas = 3 - A Return To The Full House Mix Of Genetic Humans = Atlantian

Why Does This Happen ?

The Separation Of The Gene's Have A Limited Shelf Life

The Laws Of Nature

Think Of It Like Granny Cooking A Mixed Pie

Does This Threaten The Culture/Tradition?

Culture & Traditions Transcend Material Vessels

Thought's On The Sun

There Are Many Threats To The Existence Of Humanity On The Planet & From The Cosmos

The One That Peaks My Interest Is That Of The Sun's Ability For A Cosmic Solar Out Burst

Why Does This Interest You?

People Understand The Damage That A EMP (Electromagnetic pulse) Can Do

Though The Idea Of A Cosmic One Is Mind Blowing but I'm curious If It's Also Literal

What Do You Mean?

So We Know That Every Motherboard Or Machine Will Stop To Function & Humanity Will Collapse But Here Is The Spice

If The Human Brain Is A Electric Power System, Could Not A Cosmic EMP Stop It From Working

Think Of That Mind Eraser Flash Machine They Had In Men In Black But Instead Of Memory Wipe - Death

Im Sure This Has Happend Before, The Thing That Fascinates I Is That Some Had To Have
Survived & Evolved To Survive The Next Way

Those To Me Are The Atlantians - The Ultimate Genetics = For Long Term Survival (That's The
Key) Natures Laws

Able To Survive Not Only Natural Law Of The Earth But Of The Cosmos

I Don't Think There Are Many With This Gene On The Planet

Why Do You Think This?

You Already Know The Answer But I Will Put It In A Simple Way = Human's Have A Habit Of
Destorying Thing That Are Of Great Value & Then Only Understaning It's Value One's It's Gone
As I Have Said Before - I Don't Need To Fight, I Can Just Sit Back & Watch The Show & Let The
Universe Do It's Thing

& To Keep It Humble & So There Is No Cofusion

That Ability To Reboot The Brain Must Be In The Gene's Of The Most Divers/Mixed Humans

For A PC Needs Many Part's To Reboot - Complexity Is Important To The Cosmos - For The
Cosmos Is Complex In It's Simplicity - Now That's Art

So Those Who Have Done Selective Breeding - (You Know Who You Are) Have Made A Error Due
To Your Need For Appearance - You Focused On The Outer Look More Than You Did On The
Inner Details But That's Not Your Fault (It's Human Pride - We All Have A Moment - Nothing
Wrong With A Artist Proud Of There Work But Art Is Always On The Move & Changing) - Like I
Said There Are Many Virus's In The Collective Human Mind - So Such Error Can't Be Avoid Till
You Unfilter & Create A Solid Foundation In The Collective Human Mind

This Is Not Really Of Interest To Myself But I Understand It Important For Some - So Just Meeting
You Have Way

So That's Why Colour / Race Mean Nothing To You?

If Your Talking About Evolution, Why Box Yourself In To Such A Small Range Of Possibilities

Wouldn't It Just Stall Your Evolution? - Food For Thought

What Are Your Biology Thoughts On This Matter?

I Have Yet To Come A Cross Such A Program That Follow's Natural Law - No One Cooks Better
Than Mother Nature - If It Follow's Natures Law - I Will Find It Intresting But All So Far Seem To
Follow Human Made Up Laws Or A Corrupted View Of Natures Law = Which Never Survive Or
End Well In The Long Run

Just To Make It Clear - Wiping Out Other Races Doesn't Make One Better In My Eye - For That
Does Not Mean You Will Survive The Solar Burst Or A Collapse Of A Civilization - Extinction
Events In Any Form Usally Leave The Plant In A Weaker State Than It Was

What Do You Mean By This?

Have You Ever Wondered Why People Have A Habit Of Trying To Re-Clone Extincted Animals - I
Think Deep Down They Know - Extermination Is Foolish & They Rob Themselves Of Something
Beautiful

See, When You Stay Humble Through The Thought Process - The Unseen Becomes Seen

I Now Know What They Mean By The Pride Before The Fall

It's The Artist's EGO's Death - To Access Greater Art Forms

Racism

What Are Your Thoughts On Racism?

Let's Keep It Simple For Many Like To Make It Complex - So It Cannot Be Solved - It's Like The
Law System - With Loop Holes

Male?

Female?

Race?

Ideology?

Gender?

Age?

Colour?

To Me Are irrelevant - I Will Go More Into Detail Below

Anything That Prevents My Evolution - I Change It

So Be It Black OR White Facism - I Crush It - For Evolving To Survive The Cosmic Threat Comes
First (Solar Outburst) - If Your Basic's Ain't Covered (Solid Foundation) Everything After Falls,
With Time

Imagine All That Sacrifice To Build For Nothing - I Would Be MAD As Hell

This Applies To All Things - Genetic's / Culture / Civilization & More

I Am Putting It In A Cold Manner For The Sake Of The Discourse

But For Reminder - I Think Everything Must Be Done With LOVE

What Purpose Does Racism Play In The Long Run = The Extinction Of The Human Race Over
Time = Think Of It As A Mind Parasite That Tricks The Whole Species To Divide & Not Share
Genetic Material To The Point, That Their Gene Pools Die Out = A Slow Death Through Stupidity

So It Serves No One

That's Correct

It Was The Most Foolish Concept Ever Created But As A Species Destroyer, It Works

Rules That Should Be Followed

Symbolic

Following The Rules Of The Natural Laws / Cosmic Laws

You Can Adapt Your Plans To Natures Principles

For Nature Is Complex & Can Take On Many Forms

And Is Friendly To Human Idea's When Applied With Respect

I Choose To Keep It Simple For The Sake Of Expansion Of Mixing & Creating Your Own (Open-Source)

Alchemy

Alchemy Is The Pure Compressed File Of The Science's

Will Not Go To Into Detail On The Work's
The Great Works = Goal Is The Attainment Of Immortality = Biology = For The Greater Cosmic Works

Gods Hand Paths

There Are Two Paths In God's Hands

The Left Hand Path = Technology = Expanding The Mind Into The Digital Realm And Robot Soldier (Ghost In The Shell)

The Right Hand Path = Biology = Human Development Via Virus (Black Death) Or Alchemy The Search For Immortality

Understanding The Price For Immortality = To Be Honest I Wouldn't Wish Such A Curse On My Worst Enemy - I Will Explain Below - I Would Recommed Longevity Via Gene Development For The Common Folk

Immortality = Transcends Super Soldier - Will Lead To Losing One's Humanity In The Long Term.

Why Would You Say That?

Not Many Minds Can Live Through The Cycles Of Human Civilization's On A Repeat - Think 50 000 Years Would Be In The Eyes Of A Immortal Would Be A Baby

That's Why I Would Recommend A Limit At Super Soldiers

Though I Would Still Recommend A Immortal To Be Created

Why?

Think Of It As a Back Up Storage Of Humanities Plans But This Being Will Be More Weaponized Than A Super Soldier = The Asset Must Be Able To Protect It Self = When Society Collapses = People Revert To Their Animal States And We Don't Want That Trillion Dollar Asset To Go To Waste.

Why A Biology Asset?

Tech Is Not Flexiable To Changes - Thinking That Far In The TimeLine

A Biology Asset Has The Ability To Change And Adapt And Can Mantain And Protect The Tech Asset For THE Long Run, So You Can Have Both

The Biology Asset Will Be The Person Whose Willing To Run The 4.5 Billion-Year March On Repeat, Thus A Strong Mind That Can Keep Their Humanity Through That Run And Help Human's Through There Development Over And Over Again Without Destorying Human's Or Losing Faith In Their Ability To Develope To Space Travel And Planet Development And Repeat It Again And Again On A Cosmic Level

Thus The Biology Asset Will Be The Ultimate Human Weapon To Protect Itself And Other Super Human's Or Human's Through The 4.5 Billion-Year March - Thus The Myth Of The Vampire, Thus This Being Must Have A Fair Mind And A Strong One To Keep Their Humanity Through The 4.5 Billion-Year March On Repeat
